Hi Kim,
Here is the proposed response for the portable toilets. Please advise if you are okay with this approach and attribution. Thanks.

"Ahead of the start of the demonstration in the downtown core, the City installed 15 portable toilets under the highway overpass at Laurier Avenue West, close to the canal. After a few days, it was determined that not all of the units were needed, and we subsequently reduced their number to five. As of February 6, the remaining portable toilets were removed, and they will not be reinstated."

Perfect, then I propose the below, which has a new line at the end. Would this work for everyone?

"Ahead of the start of the demonstration in the downtown core, the City installed 15 portable toilets under the highway overpass at Laurier Avenue West, close to the canal. After a few days, it was determined that not all of the units were

needed, and we subsequently reduced their number to five. As of February 6, the remaining portable toilets were removed, and they will not be reinstated."

Yes, they were removed. I double-checked my notes and they were removed Sunday, February 6.

Ah, this is great to know, does this mean they are no longer there and won't be coming back? If so, we could adjust to the response below.

Thank you Seb. This looks fine and in terms of what you intend to let the reporter know on background, that makes sense too. For your awareness, the 5 toilets were removed on Monday, I believe, as they were interfering with the fence installation around Confed Park.

Subject: Media Inquiry: Portable Toilets for the Demonstration - CBC Ottawa

Hello Beth,

We've received an inquiry from Joanne Chianello at CBC Ottawa on the ongoing demonstration downtown. The reporter would like to know how many portable washrooms the City has provided or helped to provide the protesters since the start of the demonstration, along with where they are located.

Would we be able to reuse the response we provided to the Ottawa Citizen's Jon Willing on portable toilets on February 4? Of note, we will also let the reporter know on background that the units were "no longer needed" because they were not being used, and the demonstration organizers have their own.

Please let me know if there are additional units we aren't aware of and we would be happy to help adjust the response.

"Ahead of the start of the demonstration in the downtown core, the City installed 15 portable toilets under the highway overpass at Laurier Avenue West, close to the canal. After a few days, it was determined that not all of the units were needed, and we subsequently reduced their number to five. As of February 7, the remaining portable toilets were removed, and they will not be reinstated."
